Individual awards for a trader's self-power (USDT, cash)

The reward for the trader's strength is calculated as the indicator of the trader's profit during the tournament multiplied by Log_2 (the final balance value during the tournament). With the same profit values, the trader with a larger deposit will win, since it is easier to make 100% of \$ 200 than to make 100% of \$200,000.

*Users with zero trading volumes will not be counted as effective participants and will not be able to receive rewards.

Trading volume rewards (USD, cash)

Achievements are calculated from the **Traded Volume** metric. The user is given 1 nomination for the trading volume, which has 8 levels. Upon reaching a new level, the reward (and the appearance of the achievement are updated). Level rewards are not cumulative, but 1 is paid for the last level received.
